

Valve Tag Standard Policy

ValveIT Heavy-Duty Tag labels with a format of 45,7x21,2mm have been developed for the reliable and professional labelling of all kind of valves and actuators. The heavy-duty polyester film labels are oil-, dirt-, UV- and temperature resistant (-40°C to +150°C) and water- and tear proof. Stainless Steel Plate and Wire guarantee an high performance in terms of tag durability among Fresh-Water, Salt-Water and Industrial environments.

Technical Specifications

PLATE	
Material	Stainless Steel
Dimensions	50 X 25 mm
Thickness	0,5 mm
Hole (∅)	3 mm

WIRE	
Material	Stainless Steel covered with Nylon
Material Properties	High Tensile Strength, Fresh Water & Salt Water resistant

LABEL	
Dimensions	45.7 x 21.2 mm
Printer type	B/W Laser
Adhesive Type	Permanent
Colour	Silver
Surface (special feature)	Matt
Material	Polyester
Material Properties	Weather-proof, UV- & Temperature-resistant, Water-resistant, Water-/Dirt-repellent, Hard-wearing, Oil-resistant, Dirt-resistant, Tear-proof
Shape	Rectangular with rounded corners
Eco-friendly	PVC-free
