AL JUBAIL II

400.000 M³/DAY SWRO PLANT

2021

Location: Saudi Arabia

Plant Type: Desalination Plant

End User: SWCC - Saline Water Conversion Company

The project involves the construction of the 400,000m³/day Jubail II seawater reverse osmosis (SWRO) plant. The plant serves the Jubail city in the Eastern province of KSA, home of the largest industrial city in the world. The Jubail II project located on the east coast; home of the record-breaking power plant and the world's largest desalination plant using modern hybrid desalination technology is a prestigious and challenging project serving a strategic community of local and international significance.
