Location: Saudi Arabia

Plant Type: Water Treatment Plant

End User: Saudi Electricity Company

The project involves the construction of a modular water treatment plant with a capacity of 2.000 m³/day intended for the Riyadh PP12 Power plant. The plant is located 100 KM West of Riyadh City. The grass root combined cycle power plant (PP12) produces a net output of 2,175 MW at ambient temperature of 45 °C utilizing exhaust gases from the gas turbines to generate steam and run the steam turbines themselves.
